Environmental Funders Network

1. Growing environmental philanthropy
2. Improving environmental philanthropy's effectiveness
3. Supporting environmental groups

'When you started at EFN,
environmental funding was
a pond, now it's a lake ...
let's turn it into an ocean!'

Foundation Scotland

Environmentally sustainable

About › The National Lottery Community Fund Strategy 2023 – 2030 › Environmentally sustainable

We'll support communities to be environmentally sustainable

Climate change is considered the “most pervasive threat to the natural environment and societies the world has ever experienced” (UN, 2022). While many environmental challenges are global, there is huge potential for UK communities to make a difference locally.

We'll embed support for environmental action across all funding. And we'll also invest in specific environmental projects, so communities can make changes that help support a healthy planet.

We'll fund projects that:

- reduce carbon emissions and negative environmental impact
- create positive environmental impacts
- establish equality of access to the natural environment
- improve the quality of natural spaces.

Environmental Funders Network

FUNDER COMMITMENT ON CLIMATE CHANGE

The Funder Commitment on Climate Change (FCCC) was launched in 2019 and is a holistic, high-level framework supporting funders to play their part in tackling the causes and impacts of climate change.
