

Keep Scotland
Beautiful

Climate Emergency Training for Scotland's Transport Sector

Keep Scotland Beautiful

Keep Scotland Beautiful is your charity for Scotland's environment.

We work with you to help combat climate change, reduce litter and waste and protect and enhance the places we care for.

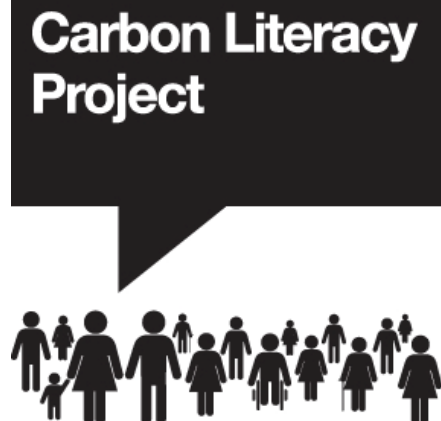

We support the ambitions of the United Nations Sustainable Development Goals.

The Carbon Literacy Project

“An awareness of the carbon costs and impacts of everyday activities and the ability and motivation to reduce emissions, on an individual, community and organisational basis.”

Learning outcomes

1. Understand the basics of climate change science and how we know climate change is a problem.
2. Explore the impacts, risks and opportunities that climate change will present to the transport sector.
3. Know what's being done to tackle climate change at a variety of levels; locally, nationally and internationally.
4. Understand the role of the transport sector in the transition to Scotland's target of net-zero emissions by 2045.
5. Explore and commit to actions to reduce carbon footprints.

Climate Emergency Training with Keep Scotland Beautiful

Thank you for listening to this session. We provide a variety of training to help you on your journey to tackle climate change.

Certificated by us

Stage 1

Introduction:
E-learning module

Accredited by KSB

Stage 2

Introductory webinar
and workshops

Accredited by the
Carbon Literacy Project

Stage 3

Advanced accredited
training
